Giving the location of each street, and showing what other streets and places run from it or across it, with the number at which they intersect

The Value of Being Exact

Is nowhere greater than in your business

Know your customers by their full name

Know where they are located

Know others in the same line who may become your customers later

Know that your mailing list is up-to-date and contains no dead ones

Permit all to Know

Who you are

Where you are located

What your full line consists of, and

How it is for their interest to trade with you by placing your advertisement in

The **Directory,** where it is always at hand when wanted, and shows that you have a local interest which means, interest in your patrons.
